DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Claims 1-103 are directed to 9 species as illustrated in figures 1-20D. 9 species are identified as below.

Species 1 – claims 1-20, directed to a deformable hearing aid comprising a plastic skin.

Species 2 – claims 21-34, directed to a hearing aid comprising at least one spine.

Species 3 – claims 35-64, directed to a compressible hearing aid comprising an air containing matrix.

Species 4 – claims 65-71, directed to a method of audio processing.

Species 5 – claims 72-79, directed to a method of manufacturing a hearing aid.

Species 6 – claims 80-89, directed to a method of manufacturing a compressible hearing aid.

Species 7 – claims 90-91, directed to a hearing aid system.

Species 8 – claims 92-94, directed to a compressible hearing aid comprising a non-permeable, flexible elastomeric skin.

Species 9 – claims 95-103, directed to a compressible earpiece comprising a cellular matrix.

Art Unit: 2643

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

3. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
